

G.A. CAS

- Rec. System Requirements**
- OS: Windows XP, Windows 2000
 - CPU: Pentium 4, 800 MHz+
 - RAM: 256 MB+
 - Hard Drive: Free Space 1 GB+
 - Video Display: 1024 X 768 + 256 colors
 - CD-ROM Drive

G.A. CAS
CLUB ANALYSIS
SOFTWARE

TECHNOLOGY

G.A. CAS is a revolutionary new software that organizes GolfAchiever II data into a number of powerful and useful formats for comparison and evaluation. As one of its most beneficial features, GA CAS graphically displays the optimal launch angle for each shot using colorful, easy to read charts. GA CAS increases the ease and usefulness of lie angle fitting by allowing it to be done without the use of lie tape or lie boards. Side-by-Side comparisons of carry distance, launch angle, ball speed, club head speed, face impact and azimuth, provide excellent visuals for choosing the club that delivers optimal performance. The GA CAS software allows users to customize and save data from each fitting session, including: Customer Profiles, Individualized Golf Bags and Club Recommendation Reports.

FEATURES & BENEFITS

- > Fully Integrated with GA II Basic Software
- > Efficiently Organizes Customer Data
- > Allows the User Easy Access to Relevant Club Fitting Data
- > Saves Customer Fitting Sessions for Future Reference
- > Customizable Customer Profile, and Golf Bag
- > Revolutionizes Lie Angle fitting
 - No Need for Old Fashioned Lie Tape or Lie Boards
- > Graphically Displays the Optimal Launch Angle for Each Shot in Powerful, Easy to Read Charts
- > Allows Powerful Side-by-Side Comparisons of Carry Distance, Launch Angle, Ball Speed, Club Head Speed, Face Impact and Azimuth During the Fitting
- > Simple to Use Graphics, Instantly Tell the Club Fitter if Driver Data is Optimal
- > Printable Personalized Club Recommendation Sheets that can be Customized to Include:
 - Contact Information
 - Personalized Comments
 - Club Name, Brand and Model
 - Driver Loft
 - Shaft Length, Material, Flex
 - Grip Size
 - Sales Price
- > Graphics Update in Real Time for Each Shot Hit
- > Works with your Existing GA II - No New Hardware Needed
- > Leads to Increased Club Sales and Customer Satisfaction
